## The New Era.

Newmarket, Friday, Jan. 2nd, 1857.

## General Summary.

The regular Monthly General Meeting of the Newmarket Mechanics' Institute, takes place in the Temperance Hall, on Monday evening next, the 4th inst., at half past 7 o'clock. None but members admitted.

The Committee of United States Congress, it is said, will report in favor of granting \$250,000 to the Hudson's Bay Company, as a consideration for the damages done their trade by American speculators. Rather cool.

A general meeting of the Reform Central Vigilance Committee will be held at the Era office, Newmarket, on Wednesday evening next, the 7th inst. at half past 7 o'clock. A full attendance requested.

Attention is directed to an advertisement, which first appeared in last week's issue, from Mr. Joseph Harris, relative to the *Genesee Farmer* an Agricultural Journal published at Rochester, N. Y. Specimen numbers may be seen at this office in a day or two. See Advertisement.

On Tuesday last the interesting ceremony of laying the corner stone of a new Town Hall, in Cobourg took place with much eclat. Additional interest was given to the proceedings by its being done under the auspices of the Provincial Grand Lodge of Freemasons.

Absence from town previous to attending the Lecture delivered by Rev. J. Spencer, on Chemistry, last Friday evening. We are glad to learn, however, that the Hall was well filled, and the experiments of the Lecturer highly satisfactory. Another Lecture will be delivered next Friday evening, the 9th inst., by Prof. Robertson, of the Normal School, on the subject of "Early English Literature." A crowded house is expected.

To Correspondents.—J. H. King: your article will appear shortly.  
"Gulielmus": Will appear in turn.  
J. G. F.: All right; will endeavor to be more careful. Papers sent.

Mr. B. Sharon: your article will come up for consideration in turn.

J. C. Ayer & Co.: The matter is rectified.

The following verdict was returned by the Jury summoned to enquire into the cause of the melancholy death of David Wallon, before Coroner Willson: "That the deceased came to his death while in the discharge of his duty, in Mr. Donogh's Sutherland's Mill, of this place, by falling on the water-wheel—being carried between the wheel and breastwork, causing instant death."

A correspondent from Stouffville informs us that we omitted an important motion made by Mr. Johnson and seconded by Mr. March, relative to holding the Town Meeting at Lemonville. We took our report from the minutes of the Clerk, and no such resolution there appears, to our knowledge. If it is true, as our correspondent avers, that the Councilmen above-named refused to vote for their own motion, it exhibits a weakness we do not altogether like. We can have an explanation next Monday however.

We regret to learn that Dr. S. Phillips met with a very serious accident, one evening last week while returning from Aurora, which nearly proved fatal. It appears a span of horses had broken loose from some place in the above village, and on passing over the Doctor's carriage, throwing him and Mr. J. D. Phillips, who was accompanying him, into the road. The Dr. was taken up unharmed, and remained so for some time; but after a while consciousness returned, and we now learn he is doing well. Mr. J. D. Phillips fortunately was very little hurt.

## King Council.

This Council met at the Temperance Hall Kettley, on Saturday last the 27th ult. All the members present—the Reeve, Geo. Hughes Esq., in the Chair.

After the minutes of last meeting had been read, and passed as correct, the Reeve stated that Capt. McLeod was present and wished to make a verbal statement of some grievance under which he labored, if the Council was willing to hear him, to which the Council assented.

Capt. McLeod then stated, the hardship of which he complained, was one that he had submitted to for years sooner than make a noise about the matter; but as it was costing him in one School Section above some £7 10s, he had determined to take some steps this year to have it settled. His farm was so situated that he found himself placed in four School Sections; and as it had not been divided by the Assessor, the Trustees of each School had levied taxes, he believed on the whole lot—at least, two of the Sections had. This was the hardship of which he complained.

The Reeve said he could recover the amount back from the Trustees—the School law distinctly stating that where a man's property was situated in two or more Sections, he shall pay taxes in the one in which he resided.

The Council then adjourned one hour for dinner.

Mr. Wm Wells presented a Petition from several of the inhabitants of Grand Kettley, praying the Council to pay the funeral expenses of the late Wm. Webb a pauper.

Mr. Wells said the subject of this Petition

was a young man who emigrated to this country from Scotland, and followed the occupation of painting. Unfortunately he was strongly addicted to intemperance—in fact, the most intemperate man he (Mr. Wells) ever knew. Just about the time his last illness came upon him he visited Mr. Stokes, who advised him to take lodgings with Mrs. Clark. He did so, and died ten days after. Mrs. Clark now sought to be re-imbursement the expenses attending the funeral.

Mr. G. Wells presented a Petition for School Section No. 21, praying to have the bounds of the section altered.

Also, a counter circular signed by a large number of the rate-payers to be left as they were.

Mr. Wm Wells thought the Trustees and Petitioners had not taken the legal course. They should have called a School Meeting and decided the matter between themselves before bringing it under the notice of the Council.

On motion of Mr. Wm Wells, seconded by Dr. Bull, the Petition of Mrs. Clark and others relative to paying the funeral expenses of Wm Webb, a pauper, was laid over until next meeting.

On motion of Dr. Bull seconded by Mr. G. Wells, several accounts against the Municipality were ordered to be paid.

On motion of Dr. Bull seconded by Mr. Wm Wells, the account from Mr. Walsh, for surveying was ordered to be laid over until another meeting—the report of the survey act having come to hand.

Mr. Wm Wells moved, seconded by Mr. S. Snider, that the Petition of School Section No. 21, be laid on the table.—Carried.

The Report of Mr. Searls, Engineer and Surveyor, of the two lines of proposed roads through King Township was brought up and laid on the table—from which we make the following extracts. Our King readers, we believe, are well aware of the two routes. Both commence at a place known as Watson's Corners, on the 9th line: the one proceeds South to Nobleton, thence across to King Station; the other proceeds East, through Kettley, to the fourth, thence South to King Station. The distance by the latter route is a trifling above 13 miles; and the former scarcely 13 miles. The amount is in dollars and cents.

The above estimates, it will be observed, are without Gravel, Stone or Plank. The engineer estimates, that the following amounts must be added, to complete the Roads:

Plank, per mile	\$1690
Stone, per mile	\$2125

These estimates show that the road via Kettley, if planned, will cost above \$61,000, and if stone, about \$67,000. And the route by way of Nobleton, if planned, the sum of about \$69,000; and if stone, about \$75,000. These latter estimates we have placed in round numbers, and they may vary a trifle; but nothing worth mentioning.

The surveying of the two Lines cost, we understand, \$225.

Dr. Bull moved for leave to introduce a By Law to fix the salaries of certain Municipal officers for the current year.—Granted.

The By-Law was then introduced, and the Council went into Committee of the whole to fill in the amounts. Mr. Wm. Wells in the Chair.

Mr. G. Wells moved that the blank fixing the salary of the Clerk and Treasurer be filled with fifty pounds.

An amendment, it was moved by Dr. Bull, that the blank be filled with sixty pounds; and on a division, the amendment was carried.

The Clerk said it had been remarked by a member of the Council, that money had been lost to the Township through him. He would now like an explanation.

The Chairman, Mr. Wm Wells, said he was not in a position just now to reply; but he would do so on the third reading of the By-Law.

On motion of Dr. Bull, the blank fixing the Collector's salary was fixed at £30.

The Committee then rose and the Chairman reported the By-Law as amended,—which was received and read a third time and adopted.

Mr. Wm. Wells said he now desired to make a remark or two on an observation that had been made by the Clerk and Treasurer. He considered that Mr. Wood was a very efficient Clerk, and had done good service to the Township; but of late he observed that the affairs of the Council had not been well attended as formerly. The reason why he had made the remark that money had been lost through the Clerk, to the Township was because arrears of taxes had not been collected. At the commencement of this year something like ten pounds had not been collected for last year. These amounts the Clerk was empowered to add to the assessments of the parties this year, but he had not done so. It was therefore lost to the Township. When the assessment was made last year, on some places, parties were living, and it consequently was given in as resident property; but when the collector called the parties had removed and there were no effects. The amounts due last year, ought to have been added this year,—and on this point he considered the Clerk had been remiss in his duty.

Mr. Wood said, the duty referred to by Mr. Wells, only referred to the Conly Treasurer in the case of non-resident property—at least that was the way he interpreted the act. He was willing to do as the Council ordered,

however, if they would stand between him and all harm. If the collector returned his roll and wrote opposite the name of any party 'no effects,' and swore to it, he was obliged to receive it and deliver up his bonds.

Dr. Bull said he believed the principal part of this money had been lost through inefficient collectors; and he hoped more attention would be given in making the selection of that officer in future. Here the matter dropped.

Dr. Bull moved for leave to introduce a Petition from Mr. Jeffries, praying the payment of a balance due for constructing a bridge in Ward No. 2, under certain Commissioners.—Granted.

The Petition was then read and leave granted Mr. Jeffries to make a statement relative to the matter, when he said he had been employed to construct a bridge by Mr. Ireland and other commissioners, which cost £13. The Commissioners had only £10 placed in their hands for expenditure,—and as that amount was not sufficient to make a permanent job, they ordered it completed, but said they would see him paid. He had now been waiting going on two years and thought it was time he got his pay. Mr. Ireland confirmed this statement.

On motion of Dr. Bull, seconded by Mr. Snider, the Treasurer was ordered to pay Mr. Jeffries the sum of £3, and the amount to be deducted from the appropriation due that Ward next year.

The Council then adjourned sine die.

## Death of Father Matthew.

Father Matthew, the renowned Apostle of Temperance, died at Cork on the 9th of December. His career has been remarkable, and his influence among his countrymen in Great Britain and America will long be felt. Theobald Matthew was born in Thomastown, Ireland, Oct. 10, 1790. He was left an orphan at an early age, adopted by an aunt and educated in Kilkenny Academy, and at Maynooth. He was ordained to the priesthood at Dublin, having previously entered upon his philanthropic labours among the poor. The curse of whiskey, brought so fearfully to his notice among these wretched people, roused him to unworldly enthusiasm, and he determined upon a crusade against the demon of Alcohol. Adopting the principle of total abstinence, he commenced a series of meetings and soon awakened the latent enthusiasm of the Irish nation to his assistance, meeting with a success beyond the wildest hopes. He travelled from town to town through all the island. His spotless fame preceded him, and his progress was one triumphal march. The authorities, unable to resist his dignity to do him honour, and the people followed and crowded around him with adoration. He administered the pledge to thousands at a time; at Nenagh to twenty thousand in one day; at Galway a hundred thousand in two days; between Galway and Loughrea to nearly two hundred thousand. From Ireland he went to England, where even the phlegmatic Saxons were infected with a corresponding enthusiasm. Thence he came to the United States, where to shake hands with the Apostle of Temperance and receive his pledge with a pledge of total abstinence was the highest ambition of every worthy son and daughter of the Emerald Isle. His warm reception and gratifying success in this country are well remembered. Through all this Herculean labour he never amassed a cent for himself, but was constantly in a state of personal poverty. When he began his good work his brother was the proprietor of a large distillery. He supported Thembald until his wonderful success had ruined the distillery, and reduced the owner to bankruptcy. To meet the wants of the good Samaritan, the British government settled an annuity of £300 upon him, which sum was just sufficient to pay the premium upon an insurance policy held by his creditors as security for their claims. Since his return to Ireland, the weight of years and the exertions of long labour have compelled his partial withdrawal from public life, and his name has been less prominently before the public. In personal address Father Matthew was courteous, benevolent and winning in the highest degree. The news of his death will be received with profound regret by every true friend of man throughout the world.

## PRUSSIA.

Prussia has communicated the resolution of the German Diet on the question of the Neuchâtel prisoners to the Great Powers, inviting them to join in a collective decision, with a view to secure her recognised rights. It is likely that the Prussians of Neuchâtel will have been judged by the time an answer to this circular is received; but the Federal Council of Switzerland is said to have given a formal promise to the Cabinets of London and Paris that an amnesty shall be granted immediately afterwards. In the course of the negotiations on this question, France and Austria have advised Prussia to abstain from military measures but have promised positively to support her views.

## AUSTRIA.

The Emperor has convened to the convocation of the Protestant Synod in Hungary. The papers are full of accounts of the Emperor's visit to Venice.

## The Ocean Telegraph Company.

The Atlantic Ocean Telegraph Company has become a fixed fact, under the patronage of the Imperial Government. It now only remains to be seen whether the mechanical part of the scheme can be carried into operation as effectively as the monetary. The following is from the *New York Daily Times* on the formation of the Company:

"Among the passengers by the *Baltic* are Cyrus W. Field, Esq., and family. Mr. Field has been completely successful, in every respect, in relation to the Atlantic telegraph. The call of 20 per cent. on the 350 shares of £1,000 each of the Atlantic Telegraph Company, was promptly met on the day when due, namely, Friday, the 5th. On the same day, the manufacture of the cable was commenced at the works of Kuper, Glass, & Co., Greenwich. On Tuesday, the 9th, the shareholders met to elect Directors, when the following were elected:—

GENTLEMEN.—Having received a number of friendly Requisitions from the Electors of the Third Ward of this Township, to become a Candidate at the approaching Municipal Election for Councilor, to represent them in the Municipal Council for the ensuing year, I beg to apprise upon that I have acceded to their request. I feel, I shall, so far as in my power, endeavor to have the Fund now in hand, or that may be received from the Clergy Reserve, applied to the purpose of Common School Education; if not able to carry out that object, then I should advocate a division of said Fund on the several roads, of the most interest to the different localities.
